

SMART SPRINGS

Leading Spring Manufacturer

We are New Zealand's leading Garage Door Spring supplier.

Our springs are manufactured onsite to strict QA Standards and are subject to life cycle testing and Random Batch Testing

If you are installing a new door or are replacing old/ faulty springs – Just let us know the Height, Width and total weight of the door. *We also need to know if the door is on a Low Headroom setup.*

In almost all cases we can have the springs ready on the same day or ready to courier the following day for nationwide delivery.

We specialize in all types of garage and commercial doors including sectional, roller and tilting doors. We can calculate springs for heavy doors, Low headroom setups, Glass, Cedar, Angled Pitch and Vertical Lift Doors.

When it comes to springs – there is no problem we can't fix!

Enquire now to set up a commercial account and access our commercial pricing.
